MACHINE STARTING RUNNING ROUGH, DIED AND WILL NOT RESTART

\$7,904.83

Technician Comments:

Diagnose broken crankshaft. Assist customer moving machine off road.

Load and unload machine on trailer.

Removed eng to swap parts to new eng found crankshaft . flywheel bolts broke and damaged end of crank and flywheel.

Engine was a bare block and head only. I had to swap all components from damaged engine to new engine. Changed transmission filter and oil because of metal off of flywheel and crankshaft. Inspected torsional isolater and decided to change because of damage caused by broken bolts on end of crankshaft.

Tri-State providing a 50% policy for parts and labor on engine rebuild.

Invoice totalled \$28668.02 before policy

outside labor hauling machine to & from shop.
