CORRECTION:

Clutch pedal & PTO operating valve, R&R, Recondition

Inspect transmission pump. Replace bearings and key.

Removed battery, box, and cab support. Removed all lines and linkages from traction control valve and removed valve from tractor. Disassembled the pump and checked components for wear all hard parts appeared to be in good shape and no scoring on housing. Found that the transmission line going from valve to the two speed was busted and laying in there. Removed the line and installed a new one in its place. Installed valve and checked oil and then ran to check for leaks and everything seemed operational. Reinstalled the cab mount, battery box and battery

### TERMS AND CONDITIONS

Terms: Net due the 20th of the month following the statement. A finance charge of 1.5% per month (18% annual percentage rate) will be added to all past due invoices except where prohibited by law.

Returned goods must be accompanied with this invoice. A 15% handling fee will be charged unless due to defective goods or our error. Goods cut to length or special order goods are not returnable. NO RETURNS OR REFUNDS AFTER 30 DAYS.

Customers must notify PrairieLand Partners 24 hours in advance if they intend to cancel or reschedule service work. The notification must be received by the store service manager so an alternative repair date can be provided. Any work performed by PrairieLand Partners prior to the cancellation period will be billed to the customer per the pay method setup in the customer record.
