Thank you for your business!

Please remit payment to: 7600 N. Bryant Ave Oklahoma City, OK 73121

Explanation of work performed:

SEG. 01: I raised the machine into the air and blocked. I performed the service brake calibration with CAT ET. Then I put the machine back down on the ground and tested the brakes. Brakes are now working correctly.

SEG. 02: One of Bennett's techs installed GPS unit on the machine.

SEG. 03: While performing the brake calibration, I found that the center roller on the right track was loose from the roller frame and was damaged. I looked up the parts needed and ordered them. I sent the parts to the jobsite for the Bennett tech there to
