Service call to Bailey's Excavating shop. Greased unit, several pins on front of machine would not take grease properly. Removed pins and bushings from rod end of left blade angle cylinder and blade tilt cylinder. Removed upper blade pivot and rear ripper left pivot pin. Tightened fuel line on injection pump. Changed engine oil and filter. Changed both fuel filters. Replaced outer engine air filter. Cleaned out a/c evaporator drain on left side. Both blade lift cylinders still will not take grease at rod ends. All other pins were greasing properly.
