Item	Description	Quantity	Rate	Amount
Labor-NT	Labor - Shop Hours 9/21/2021 thru 10/11/2021 Hours: 6785 Customer brought machine to shop with left final drive shaft slipping. Left hand final drive had no oil in it causing it to chew up gears and shaft. Final drive was not rebuildable. Installed new aftermarket final drive. Resealed left hand track adjuster and adjusted both sides. Changed oil in right side final drive. Ran machine and checked operation and for leaks. Everything works both high and low speeds and forward and reverse.
