Customer Service Issue # 1

Line 1 - Front head gasket leaking

Pulled front 2 heads and found liners low and head gaskets leaking. Decided to do complete overhaul. Pulled all liners and cut ledges. Replaced all cyl kits, heads, and all injectors. New Red Antifreeze. Had faults for boost pressure, replace boost sensor. Manual boost gauge didn't work. Make new hose as end was broken. Still no boost, drill out filtered fitting in intake with .062" bit. Gauge works great now. Reads apx 3 psi high.
