Cat 3126 Engine No. 7AS77690 Service and PM. Please see service form for details.					
Repair engine low on power. Removed and inspected fuel filters and air filter. Found air and fuel filters stopped up. Replaced filters as needed. Test ran engine and performed a cylinder cut out test. Found #5 cylinder misfiring. R&R valve cover. Replaced #5 injector. Ran overhead as needed.					
Inspect clutch. Found no free travel. Adjusted clutch internal.					
Inspect front end and suspension. Look over good for a front end shake. Found the tires bad, needs replaced. Inspected and found both front brake calipers holding and not releasing. R&R wheel and hubs. Inspected bearings and packed with grease. Replaced wheel seals. Replaced both front calipers and disc pad sets.
