TRIMAX EZEEMOW//FX

The EZEEMOW FX is the ideal partner for your compact tractor where versatility and robustness is needed.

With its compact dimension, Ezeemow FX can fit closely to the tractor and manoeuvre into tight corners. Able to mow anything from fine turf to small prunings, vegetation up to 25mm in diameter and high grass, the Ezeemow FX can transform areas into tidy mown lawn in a single pass. This versatility makes the Ezeemow FX ideal for contractors, councils, roadsides, estates, and orchard applications.

The Ezeemow FX has been designed to have minimal maintenance requirements and low total cost of ownership yet deliver maximum reliability.

I've been mowing 30hrs a week for over 28 years and my Ezeemow still has the same gearbox. It produces a beautiful cut and if I had to, I'd replace it with the exact same model..no two ways about it!

WHAT'S NEW ON EZEEMOW FX

Strength and durability are increased from the original Ezeemow design with the incorporation of a high tensile steel body, a 70% stronger rotor, a stronger gearbox, and forged steel Trimax Gamma Flails. The unique converter, an improved belt tensioning system, and easy height adjustment on the full width roller have also been added.

PRODUCT FEATURES.

NEW IMPROVED ROTOR

Dynamically balanced and designed for durability to withstand everyday use in the toughest mowing environments.

POWER SAVING FLAILS

Strong forged steel flail with an aerodynamic profile reduces hp requirements yet generates sufficient draft to lift grass for a clean cut.

SAFE CLIPPING DISPERSION

Safety is paramount when mowing in public areas. This is why Trimax has designed the Ezeemow FX to expel debris in a downward direction behind the mower.

REAR ROLLER

Full width rear roller prevents scalping, permits the edge of the mower to be run along curbs, adds to overall safety and produces striping.
