Client concerns:

- FRONT STRUTS
- CUSTOMER PARTS

1 - Strut Replacement		TECH:
Labor:	Replace Front Struts - Customer Supplied Parts <input checked="" type="checkbox"/>	
Alignment - Two Wheel <input checked="" type="checkbox"/>		
✓ Approved on 12/11/23 at 09:54 AM MST		

2 - Vehicle Inspection		TECH: J Hernandez
Note: The lower ball joints need to be replaced in order for an alignment to hold, and an alignment needs to be performed for the strut job.		
The front tires are worn very badly and need to be replaced. Since this is an AWD vehicle it would be best to replace all four at once to reduce strain to the differentials and transfer case.		
The Sorento is due for a tune up to restore engine power and fuel economy.		
The fluids are due to be serviced. These fluids break down in the heat and pressure of the systems they serve and fail to lubricate properly. Regular fluid maintenance helps to reduce the amount of internal wear and tear on the components in the vehicle.		
Labor:	Vehicle Inspection	\$0.00
