Engine Dies, Check Engine light comes on. Hook up laptop, shows code 2797, 3 and 2798, 3, both injector wire harness shorted to battery. Has new wire harness installed, has also had MCM previously installed, advised by Truck Center to replace Engine wire harness. Drain cooling system, remove coolant line to air compressor, remove fuel lines to fuel filter housing, remove radiator support and bracket to engine, remove trans. cooler line support brackets, Remove engine wire harness, install new harness, assemble engine fill with coolant, purge fuel system and run engine, drive truck, engine still dies and sets codes, truck needs to go the Dealer. 25.0
