Complaint: Diagnose No Start**Cause:** Customer request

Labor **Correction:**
Engine / Starting & Charging / Connected diagnostic equipment to vehicle but unable to establish ECM communication. Performed electrical inspection of fuses and engine harness with no faults found. Discovered engine and transmission ECM power leads disconnected at recently customer-installed batteries. Reconnected ECM power leads, restored ECM communication and engine operation. Topped off coolant to specification.

Parts Extended Life Antifreeze, Alliance (Nitrite Free / OAT)

PM: PM1 - Medium Duty Basic Wet Service (Lube, Oil & Filters)**Cause:** Customer request

(PM)

Labor **Correction:**

Complaint: Code present for DEF Head Unit.

Cause: Customer request

(Inspection)

Labor

Correction:

Engine / Aftertreatment System - DEF / Dosing / Diagnosed DEF system fault code. Replaced DEF sender assembly, clearing active code. Refilled system with fresh coolant due to discolored coolant. Operated vehicle to normal operating temperature and performed complete DPF regeneration cycle to verify proper system function. Updated calibration software to latest release.
